

# The RT3DVR8 - 8 Channel Digital Video Recorder

**8 Channel 200 FPS  
DVR with CD-RW &  
120GB Hard Drive**

## Overview

Ideal for advanced home or business security or CCTV installation, the RT3DVR8 is a Networkable Triplex 200 Frames Per Second Digital Video Recorder for up to 16 cameras.

Cheaper than a traditional analogue CCTV solution such as VCR and Multiplexer, this DVR is also more advanced, with motion detection technology recording only when an object moves in front of the camera. **Includes 120GB Hard Drive.**

## Features

- 8 Channel DVR
- Networkable TCP/IP LAN ADSL
- TriPlex (Recording, Playback, Ethernet)
- 200 Frames Per Second (@360x288 resolution)
- 100 Frames Per Second (@ 720 x 288 resolution)
- 1 Audio Channel
- Motion Detection
- CD-RW Backup (AVI)
- S-Video
- 120GB Hard Drive installed
